# Welding Technology

Want to become a welder or a fabricator? Enroll in Western Wyoming Community College's welding program and advance your skills in a growing industry. The welding program here at Western will give you the tools necessary to enter the workforce and be prepared to tackle any project. The faculty here at Western strive to teach the importance of code quality welds to applicable codes and standards. The program at Western is unique with its flexible entry classes and lab hours from Monday through Thursday from nine in the morning to nine at night. This setup allows you to come in on your own time and work at your own pace. Western's welding program is accredited through the American Welding Society and we are able to administer welder qualification tests and test welding procedures.

The faculty here at Western have over 80 years of combined experience in the field of welding. With that many years of experience, you can bet you are going to get a top-notch education as all of the instructors have had field related experience. On top of the years of experience, all of the instructors are certified welding inspectors and bring a wealth of knowledge to the classroom.
