

ORGANIZATIONAL STRUCTURE

The College President determines the lines of responsibility and general duties within the College District. These lines of responsibility will be reflected in the current Administrative Organizational Chart.

The College will have an Administrative Organizational Chart to reflect the lines of responsibility and authority. It will be updated regularly to show the current lines of responsibility. The Planning and Improvement office will coordinate the updating of the organizational charts.

The chart will be presented annually to the Board of Trustees in the annual factbook, which is presented to Board in March.
