

Placement Information: Math

Students should discuss scores with their advisor to ensure proper placement has been met.

Placement test scores must be received and entered in the student file prior to course registration.

Math placement at WWCC can be determined by:

- Math ACT score (within the past 3 years) OR
- Score on the ALEKS Math Placement exam OR
- Previously earned college credit (subject to transcript evaluation)

There are multiple course options for each math placement level. The math course(s) a student should take varies based on their intended program of study.
