

How to accept your Financial Aid Awards online:

1. Log into Mustang Cruiser
2. Click on Web Advisor
3. Click on tab that says Student Records-Fin. Aide (This should be right below the Web Advisor tab you just clicked on.)
4. Then 3 boxes should appear on the left hand side of the screen, the 3rd box down should say Financial Aide
Inside the box click the one that says Accept/Reject FA awards
5. This will bring up the Satisfactory Information page. You need to read through this and then at the bottom it will ask you to choose to accept or not; mark accept and click submit.
6. Next it will ask for the year choose the 2013-14 school year.
7. This will then bring up your Financial Aid award screen to show you what awards you have. If you have already accepted some of them it should show accepted and for those that still need to be accepted or rejected they should show pending. If they are pending you can either mark the box that is located in about the middle of the page that says apply to all which has a drop down box to mark accept or reject. If you mark this one it will apply the status to all financial aid listed. If you only want to accept certain awards you need to scroll down to the second half of the page where you should see the drop down tabs where you can choose to accept or reject each award individually. This will give you both the fall and the spring so make sure if you are doing them individually that you accept for both fall & spring.
8. Once you have accepted or reject all the awards on your screen it will bring up a page for you to review to make sure everything was marked correctly, if everything looks right then click ok and you are done. You can then log out of the Campus Cruiser.

If you are accepting a loan you will need to complete an entrance counseling and a master promissory note. We have additional instructions for how to complete the loan process.
