

◆ DEQ Operator Certification (DEQ) Approved Courses

Many of our one-day workshops, online classes, and seminars are approvable for operator re-certification credit. If you are taking a class for DEQ re-certification, please contact the DEQ office at 307-777-6128 to confirm re-cert credit before registering. If you are interested in receiving a letter grade, you must notify WWCC at 307.872.1326 before the class begins.

Classroom Classes:

Industrial Applications Workshops:

Allen-Bradley SLC500 PLC Fundamentals
Basic Alignment
Basic Bearing & Lubrication
Basic Electricity, AC for Industry
Basic Electricity, DC for Industry
Basic Hydraulics
Advanced Hydraulics
Basic Industrial Operator Training
Diesel Engine & Low Voltage Electrical Fundamentals
Diesel Engine Fundamentals
Advanced Diesel Engine Fundamentals
Electrical Print Reading
Fundamentals of Rigging
2-Day Fundamentals of Rigging
Heating & Air Conditioning
Heavy-Duty Brakes for Industry
Industrial Hydraulics I
Industrial Hydraulics II
Industrial Mechanics I
Industrial Mechanics II
Industrial Mechanics III
Industrial Pumps
Instrumentation I for Industry
Instrumentation II for Industry
Instrumentation III for Industry
Lubrication Principles & Analysis
Math Basics for Industry
Mechanical Drives
Motor Controls for Industry
National Electrical Code Update
Piping for Industry
Pneumatics for Industry
Reading Technical Schematics for Industry
Solid State Electronics for Industry
Variable Frequency Drives
Vibration Analysis for Industry

Health & Safety Workshops:

CPR & First Aid-National Safety Council (NSC)
Forklift-National Safety Council (NSC)
HAZWOPER
HAZWOPER Annual Refresher

Computer Workshops:

Excel 2016
Excel 2016-Intermediate
PowerPoint 2016
QuickBooks 2015
Word 2016
Word 2016-Advanced
Word 2016-Intermediate

Online Classes

Check out variety of online classes at [ed2go](http://ed2go.com)
Six-week non-credit classes that may qualify for DEQ Certification.
